

Illegal Tampering

Illegally tampering is the likely outcome of so called right to repair legislation. The bottom line is that even today, illegal tampering is undermining advances in safety and emissions for equipment users across sectors. In April of 2019, the Equipment Dealers Association surveyed its members and the statistics surrounding illegal tampering are staggering.

Modifications Removed, Impaired or Disable OEM Safety Features

■ Safety Features Removed, Impaired or Disabled

■ Modification Unrelated to OEM Safety Features

Dealers Who Reported Observed Modified Equipment In The Dealership for Service
